Objective:

Seeking opportunities in reputed organizations as a Computer Science and Engineering student. Ready to apply technical skills, learn emerging technologies, and contribute to innovative projects, kick-starting my career in technology.

Technical Skills:

Languages: Java, C, Python, Dart, HTML5.

Database: MySQL, PostgreSQL.

Frameworks: Django, Flutter.

Tools: Git, GitHub, VS Code, Android Studio, IntelliJ Idea, PyCharm.

Projects:

CookAccordingly: A web application where the user could input the ingredients available at home, and the system would suggest recipes they could prepare using those ingredients.

Technology Stack: Django, Python, HTML5, CSS, Postgres.

- I, along with the team, developed a dynamic web application using Django to help user to simplify meal planning and cooking.
- As part of this project, my responsibilities included Back-end development, database management using Object Relational Mapping(ORM) and integrating user-facing elements to back end.
- Revolutionizing the culinary experience by shifting from the conventional recipe-first approach to a dynamic system that recommends recipes based on available ingredients.

Re-Review:

Technology Stack: Django, NLTK for NLP, HTML5.

- Developed a sentiment analysis application using Django and NLTK's Sentiment Intensity Analyzer to assess sentiment scores for user-inputted sentences, providing valuable insights into textual data.
- Leveraged NLP techniques to preprocess and analyse textual data, enabling automated sentiment classification and contributing to data-driven decision-making.
- In this project, I integrated user-facing elements with Django's back end and utilized the Natural Language Toolkit (NLTK) for sentiment analysis.

Education:

B.Tech: Marathwada Institute of Technology, Aurangabad. **2020 - Present.**

B.Tech in **Computer Science and Engineering.**

CGPA: 8.11

HSC: Deogiri, Aurangabad 2020

Percentage: 64.92

SSC: Bhaskaracharya English School, Aurangabad. 2018

Percentage: 90.20

Certifications:

Completed **C**, as well as **JAVA** language certification from Techtonic Computer Education, Aurangabad.

Extra-Curricular Activities:

Led a team of six people in the Smart India Hackathon at the college level, coordinating collaborative efforts to tackle real-world challenges.
